## DON'T LET THE STRESS OF BEING A FIRST RESPONDER WEAR YOU DOWN

Your job can take a toll on your physical and mental wellbeing. High levels of stress, physical demands, and inadequate or erratic sleep push your body and mind to the limit on a regular basis. It's no surprise that first responders struggle with stress and sleep. But because of the demands of your job, it might not make sense for you to take medications that could impair your ability to perform at your best.

You'll be glad to know that there is an alternative to medication that is:

- Fast, safe, and proven effective without lasting side effects or risk of addiction
- FDA cleared
- Handheld and non-invasive

Alpha-Stim brings relief from anxiety, and insomnia, as well as acute, post-traumatic, and chronic pain. It fits in the palm of your hand, and its earclips are as small as earbuds, making treatment easy, discreet and portable.
